

# Getting a Driver's License in Tennessee

If you think you will have a vehicle available to you and you don't have your driver's license, you might consider taking a Driver's Education class either in school, or in your community. Your car insurance rate could be lowered as a result of taking a class. The steps below outline how to get a driver's license if you don't have one.

## Steps to take:

- Go to the Driver's License or Motor Vehicle office and get the book that explains driving rules and road signs or go to <http://www.tennesseeanytime.org/dlpractice/> and study online.
- Study the driving rules.
- Get a learner's permit.
- Obtain insurance coverage for yourself as the primary driver.
- Get a parent or adult to help you practice driving.
- Take the driving test

## To pass the driving test, you must:

- Know how to safely operate the vehicle you will be driving.
- Know how to read and obey road signs.
- Know how to drive on the highway and in town,
- Pass an eye exam.
- Pass an exam about "Rules of the Road".
