

THE SELF-DETERMINATION WAIVER PROGRAM

GUIDE TO SELF-DIRECTING SERVICES

People who self direct have more control over how they get services. They have choices and responsibilities.

- Choices you will have:
 - You can hire someone you already know or can find someone you think would be a good person to help you;
 - You can decide how much you want to pay the person you hire;
 - You can decide when and how you want the people you hire to help you;
 - You can help the people you hire learn how to best help you; and
 - You can help decide if the people you hire are doing a good job.
- Responsibilities you will have:
 - You will be the Employer of Record, which means you will hire, fire, and supervise the people you choose to help you;
 - You will need to make sure the people you hire meet the rules in question #4 below, and have received special training in question #5 below.
 - You will have to stay in your approved budget;
 - You will have to make sure records, such as daily notes, are kept to show that you received services; and
 - You will need a plan to make sure you have people there to help you when you need help.

There are some questions people usually have about self-directing services.

1. Can I get help with self-directing services?

You can get Supports Brokerage Services, too. A supports broker can:
